Gainwell to provide services through NASPO ValuePoint MMIS Claims Processing and Management Services contract

Gainwell’s highly-rated solution accelerates Medicaid claims processing, increases accuracy, and controls costs

Tysons, Va., May 27, 2021 – Gainwell Technologies LLC (Gainwell), a leading provider of technology solutions, today announced it has been selected to provide core claims processing services to state Medicaid agencies through the NASPO ValuePoint Medicaid Management Information System (MMIS) Claims Processing and Management Services contract. Gainwell received the highest composite proposal, demonstration and cost score and top overall weighted score for Core Claims and all options in the 2020 NASPO ValuePoint™ multi-state evaluation of Medicaid Management Information System (MMIS) for core claims and all options.

Through the NASPO ValuePoint contract, Gainwell will support state modernization efforts to replace aging MMIS systems with discreet modules to advance business processes and improve health outcomes. The contract is a multi-state cooperative procurement initiative through NASPO ValuePoint that provides an alternative to a long and complex solicitation process at the state level.

The Gainwell Claims, Encounters, and Financials Service module accurately processes Medicaid claims and encounters and enables rapid deployment of policy changes. It facilitates maximum security, agility, and improved health outcomes while meeting federal requirements.

“Our decades of experience working with Medicaid programs gives us a deep understanding of every aspect of the Medicaid value chain,” said Gainwell President and Chief Executive Officer Paul Saleh. “We look forward to providing our powerful, collaborative, and innovative services and solutions through the NASPO ValuePoint contract.”

Gainwell works with 48 state Medicaid programs delivering solutions that help Medicaid agencies and Medicaid Managed Care Organizations contain costs, improve efficiencies, and deliver better health outcomes for the members they serve.
